

The 'Mini' Holder is a scaled down replica of the full sized version. It is also strong, stable and designed to mount any equipment vertically in the most effective position. Self tapping screws mount the Holder under a desk top or onto a vertical surface.

To set equipment in place, the appropriate case height is selected and locked by tightening the Allen screws with the Allen key provided. Width is set by clamping the case in place with the slide and lever lock arm.

**Specifications:-**

Adjustable height range: 175 - 310 mm.

Adjustable width range: 30 - 100 mm.

Weight rating: 8 Kg
