

Model 7500-Wing

Dual LCD Arm with Vertical/
Horizontal Positioning

Do you use two monitors? With the 7500-Wing, both monitors will float above your desktop, allowing you to quickly and easily adjust monitor height and position. Monitors can be positioned either side-by-side or one above the other.

Our adjustable wing bracket allows you to adjust monitors, and also allows rotation. The 7500-Wing incorporates cable management – thread the cables right through the arm, keeping your work space clean and organized.

FEATURES

- ▲ Gas arm “floats” monitors above desktop for instant height adjustment
- ▲ Monitors can be positioned horizontally (side-by-side) or vertically (stacked one over another)
- ▲ Includes FLEXmount™
- ▲ Quick-install/quick-release mechanism instantly and securely snaps monitors into position
- ▲ Compatible with all VESA® monitors – includes 75mm and 100mm VESA® mounting plates
- ▲ Includes cable management system – cables concealed in arm
- ▲ Accommodates monitors up to 24" widescreen (monitor widths may vary)
